

STATegra Summer School

Omics and Data Integration

STATegra Summer School provides a unique environment where multidisciplinary researchers will be lecturing on **statistical analysis and visualization of multi-omics data**.

The Summer School is organized by the FP7 STATegra project in data integration. You can visit us in: www.stategra.eu

RNA-seq
DNase-seq
ChIP-seq
miRNA-seq
DNA Methylation
Proteomics
Metabolomics
Multi-omic analysis
Visualization

...
And much more!

**Applications by
15th May**
