Join Us at WABI 2015

The Workshop on Algorithms in Bioinformatics (WABI), established in 2001, is a major annual workshop on algorithms in bioinformatics. Sessions span research in algorithmic work in bioinformatics, computational biology and systems biology.

WABI 2015 will be co-located with the 6th ACM International Conference on Bioinformatics, Computational Biology, and Health Informatics (ACM-BCB). The registration and accommodation for WABI 2015 are handled through ACM-BCB 2015. The registration fee provides access to all WABI events, all BCB conference events, and pre-conference tutorials and workshops.

Event Highlights

Keynote Speakers

Douglas B. Fridsma, American Medical Informatics Association President and CEO

Bonnie Berger, Massachusetts Institute of Technology, Professor of Applied Mathematics and Computer Science

Paola Bonizzoni, Università di Milano-Bicocca, Professor in Computer Science

Technical Presentations:

- 26 peer-reviewed technical presentations
  (for a full list, see http://wabi.gatech.edu/accepted.html)
- Poster session

General Chair

Srinivas Aluru, Georgia Institute of Technology

Program Chairs

Mihai Pop, University of Maryland, College Park
Helene Touzet, CNRS France

Deadline for advance registration and hotel conference rate: August 5th
